

PROJECTS AND ESTATES

CIT strives to achieve excellence in all aspects of the organisation. As a Trust we are dedicated to providing a well maintained, safe and compliant environment to educate pupils.

- The Estates team oversees the maintenance of all the buildings within the Trust and will look to support individual school site teams in providing an effective delivery.
- They will also work alongside Projects, Finance, HR, and Communications and Fundraising, working in the Support Hub to ensure a joined up and best practice approach to the running of all academy sites.

Areas where you can request or expect support from the Estates Manager are:

- Reviewing maintenance regimes.
- Review of statutory maintenance undertakings.
- Sub-contractor selection.
- Capital building project management.
- Health and Safety advice and review.
- Health and Safety training for staff.
- Cleaning provision and staffing levels.
- Utilities management.
- Condition survey and asset management plan.
